

A Novel Introduction.

The Dr. Howard company has entered into an arrangement with D. F. Davis' drug store, by which a special introductory offer will be made of 25 cents on the 50-cent size of their celebrated aperitif for the cure of constipation and dyspepsia.

So remarkably successful has Dr. Howard's specific been in curing constipation, dyspepsia and all forms of liver trouble, that D. F. Davis will return the price paid in every case where it does not give relief.

D. F. Davis has been able to secure only a limited supply, so everyone who wishes to be cured of dyspepsia or constipation should call upon him at once, or send him 25 cents by mail, and get 60 doses of the best medicine ever made, on this special half-price introductory offer, with his personal guarantee to refund the money if the specific does not cure.

For all bronchial affections, it has no equal. It relieves instantly. It's the surest cure. James M. Black of Asheville, N. C., R. R. No. 4, writes: "I cured him of an obstinate cough after all other remedies failed, 50c and \$1.00. A trial bottle free. Guaranteed by Red Cross Pharmacy."

"Generally debilitated for years. Had sick headaches, lacked ambition, was worn out and all run down. Burdock Blood Purifiers made me a well woman."—Mrs. Chas. Freiloy, Moosup, Conn.

Don't think that pills can't be cured. Thousands of obstinate cases have been cured by Doan's Ointment. 50 cents at any drug store.

Billions! Feel heavy after dinner? Tedium coated? Bitter taste? Constipation? Liver needs waking up. Doan's Regulator cures bilious attacks. 25 cents at any drug store.

It may not be known to all or many of the readers of The Times that this town had, many years ago, in its early history, a "runaway pond." The pond was known as the Lime pond, not very far from the first house south of Deacon Edwin C. Smith's house and near to our old-time lime kiln. In two state records, prepared by the late President Hitchcock of Amherst college, Mass., the two volumes of which are to be found at our town clerk's office and, presumably, in similar offices in many towns of our state, will be found quite a full account of the event. This pond covered, as we recall it, some 15 or 20 acres and emptied into Stevens creek brook, running through our village and Mill village. We think it is stated in this geology that the land about the outlet of the pond was quite like that at the old Glover pond. In this case, the owners of the mill in Mill village wanted to increase the flow of water at their pond, and so attempted the enlargement of the outlet, as was done in Glover, and the result was a runaway water pond. The much smaller size of our pond made it a much smaller catastrophe.
